## THE ARIZONA SILVER BELT

OFFICIAL PAPER OF CILA COUNTY.

Saturday, June 12, 1886.

ARRAIGNMENT OF PEDERAL OFFICERS. The present federal administration rises superior to written law and would have its simple detum govern instead of the enactments of Congress-It is not long since the Attorney General, in defiance of the omnipotence of the constitution and concomitant enactments of Congress, stultilled the action of United States courts in ighoring their power to try persons charged with murder, and at a later date the Commissioner of the General Land Office issued a circular forbidfling registers and receivers to file application for entries of public lands under the pre-emption, timber culture and desert land acts. And it was not until after it was ascertained in Washington that applicants for entries who had been refused the privilege had brought suits against a rebeiver in Utah, in order to test the right of the Commissioner to invalidate the existing law of Congress, that the author of the first circular issued another "revoking" the first, without realizing the fact that it could not be revoked, for the reason that it had no binding effect, and therefore a nullity from the moment of its conception.

This action of the Commissioner of the Land Office was brought to the attention of Congress by the introduction of a resolution of inquiry by Senator Ingalls, whether a certain circular had been assued by the Commissioner with the approval of the Secretary of the Interior, which, upon objection by over to the following day.

Another pertinent inquiry for Sen ator Ingalls to make is, Has the oper-Ation of the federal courts in Arizona been illegally suspended by an order of the Attorney General of the United States?
